As a member of the Center for Science in the Public Interest (CSPI), I urge you to ~~save human~~ lives by banning the use of ~~medically~~ useful antibiotics in animal feed. Adding antibiotics to feed in order to ~~promote growth~~ can make bacteria resistant to those antibiotics. And that can leave ~~physicians~~ with no way to treat life-threatening bacterial infections in humans. That's why I support the petition filed by CSPI.

P.S. Irradiated foods need to carry a prominent disclosure, in easy-to-read type, on the front of the package.
